Information on the quality of execution obtained

Item	Applicable to the following classes of instruments	Analysis by Julius Baer International Limited
(a) an explanation of the relative importance the firm gave to the execution factors of price, costs, speed, likelihood of execution or any other consideration including qualitative factors when making assessments of the quality of execution;	All	The execution factors and their relative importance are described in the Policy on Order Execution which can be found in the Key Client Information document provided to all clients of Julius Baer International Limited. Please contact your relationship manager if you would like to receive another copy.
(b) a description of any close links, conflicts of interests, and common ownerships with respect to any execution venues used to execute orders;	All	All orders covered by this report are transmitted to the Executing Broker for execution. The Executing Broker is a member of the same corporate group as Julius Baer International Limited.
(c) a description of any specific arrangements with any execution venues regarding payments made or received, discounts, rebates or non-monetary benefits received;	All	Julius Baer International Limited does not have such arrangements in place. All orders are transmitted to the Executing Broker, as described above.
(d) an explanation of the factors that led to a change in the list of execution venues listed in the firm's execution policy, if such a change occurred;	All	There have been no changes to the list of executing brokers / execution venues to whom Julius Baer International Limited passes orders. All orders are transmitted to the Executing Broker, as described above.
(e) an explanation of how order execution differs according to client categorisation, where the firm treats such category of client differently and where it may affect the order execution arrangements;	All	For clients classified as retail clients, total consideration will attract the highest relative importance in obtaining the best possible result. However, with a professional client, there is greater flexibility for us to determine the relative importance of the execution factors with a view to achieving the best possible result. This is described in more detail in our Policy on Order Execution referred to above.
(f) an explanation of when other criteria were given precedence over immediate price and cost when executing retail client orders and how these other criteria were instrumental in delivering the best possible result in terms of the total consideration to the client;	All	For clients classified as retail clients, total consideration will attract the highest relative importance in obtaining the best possible result. However, other criteria may be given precedence if they are the result of specific instructions from the client, or those criteria are considered to deliver the best possible result in terms of the total consideration to the client.
(g) an explanation of how the investment firm has used any data or tools relating to the quality of execution, including any data published under Delegated Regulation (EU) 2017/575 [RTS 27]	All	Julius Baer International Limited takes sufficient steps to ensure that the Executing Broker has arrangements that will enable us to comply with the overarching best execution obligation. We apply due diligence and monitoring processes which include the assessment and confirmation of the Executing Broker's best execution capabilities and ability to deliver the best results for our clients overall.

		Julius Baer International Limited undertakes periodic monitoring to determine whether the best possible results have been obtained on a consistent basis overall.
(h) where applicable, an explanation of how the investment firm has used output of a consolidated tape provider established under Article 65 of Directive 2014/65/EU.	All	Julius Baer International Limited does not make use of the output of a consolidated tape provider.
