ALTERNATIVE PERFORMANCE MEASURES

Including reconciliation to IFRS measures

2020 full-year results

INTRODUCTION

The Business Review and other communication to investors contain certain financial measures of historical and future performance and financial position that are not defined or specified by IFRS.

Management believes that these alternative performance measures (APMs) provide useful information regarding the Group's financial and operating performance. These APMs should be regarded as complementary information to, and not as a substitute for, the IFRS performance measures.

The purpose of this document is to provide the definitions of APMs used by Julius Baer Group Ltd. in its communication to investors, together with reconciliations to the most directly reconcilable IFRS line items.

APMs as defined and used by the Group may not be comparable to similarly titled APMs reported by other companies.

ADJUSTED RESULTS

Julius Baer Group Ltd. defines adjusted results as follows:

Adjusted results are derived by excluding from the IFRS financial results the operating expenses related to acquisitions or divestments (M&A) and the taxes on those respective items.

These excluded items related to M&A can include adjustments to each of the five reported IFRS expense lines (personnel expenses; general expenses; depreciation of property and equipment; amortisation of customer relationships; amortisation and impairment of intangible assets).

The M&A-related adjustments can represent inter alia items such as amortisation of acquired customer relationships; goodwill impairment charges; M&A-related restructuring costs (examples of which include employee termination benefits that relate directly to the restructuring; contract termination costs; onerous contract provisions; consulting fees that relate directly to the restructuring; expected costs from when operations cease until final disposal); fees paid to advisers on the planning, execution or financing of M&A transactions; integration-related IT or other general expenses; additional provisions set up for litigation or the recovered amount from the seller.

Reconciliations to the most directly reconcilable IFRS line items are provided below:

CHF m	2020	H2 2020	H1 2020	2019	H2 2019	H1 2019

ASSETS UNDER MANAGEMENT, NET NEW MONEY, CLIENT ASSETS

Assets under management include all bankable assets managed by or deposited with the Group for investment purposes. Assets included are portfolios of wealth management clients for which the Group provides discretionary or advisory asset management services. Assets deposited with the Group held for transactional or safekeeping/custody purposes, and for which the Group does not offer advice on how the assets should be invested, are excluded from assets under management. In general, transactional or safekeeping/custody assets belong to banks, brokers, securities traders, custodians, or certain institutional investors. Nonbankable assets (e.g. art collections, real estate), asset flows driven more by liquidity requirements than investment purposes or assets primarily used for cash management, funding or trading purposes are also not considered assets under management.

Assets with discretionary mandate are defined as assets for which the investment decisions are made by the Group, and cover assets deposited with Group companies as well as assets deposited at third-party institutions. Other assets under management are defined as assets for which the investment decision is made by the client himself. Both assets with discretionary mandate and other assets under management take into account client deposits as well as market values of securities, precious metals, and fiduciary investments placed at third-party institutions.

When assets under management are subject to more than one level of asset management services, double counting arises within the total assets under management. Each such separate discretionary or advisory service provides additional benefits to the respective client and generates additional revenue to the Group.

Net new money consists of new client acquisitions, client departures and in- or outflows attributable to existing clients. It is calculated through the direct method, which is based on individual client transactions. New or repaid loans and related interest expenses result in net new money flows. Interest and dividend income from assets under management, market or currency movements as well as fees and commissions are not included in the net new money result. Effects resulting from any acquisition or divestment of a Group subsidiary or business are stated separately. Generally reclassifications between assets under management and assets held for transactional or safekeeping/custody purposes result in corresponding net new money in- or outflows.

Assets under management which are managed by or deposited with associates of the Group are not considered assets managed by or deposited with the Group and are therefore not included in the respective numbers.

Assets under management are disclosed according to the Guidelines of the Swiss Financial Market Supervisory Authority (FINMA) governing financial statement reporting.

Client assets are defined as all bankable assets managed by or deposited with the Group companies for investment purposes and only those deposited assets held for transactional, safekeeping/custody or administrative purposes for which additional services, for example analysis and reporting or securities lending and borrowing, are provided.

Non-bankable assets (e.g. art collections, real estate), asset flows driven more by liquidity requirements than investment purposes, assets primarily used for cash management, funding or trading purposes or deposited assets held purely for transactional or safekeeping/custody purposes are excluded from client assets.

OTHER ALTERNATIVE PERFORMANCE MEASURES

GROSS MARGIN	Operating income divided by monthly average assets under management. ¹
COST/INCOME RATIO	Operating expenses excluding provisions and losses, divided by total operating income.
ADJUSTED COST/INCOME RATIO	Adjusted operating expenses excluding adjusted provisions and losses, divided by operating income.
ADJUSTED EXPENSE MARGIN	Adjusted operating expenses, excluding adjusted provisions and losses, divided by monthly average assets under management. ¹
ADJUSTED PRE-TAX MARGIN	Adjusted profit before taxes divided by monthly average assets under management. ¹
ADJUSTED EARNINGS PER SHARE (EPS) ATTRIBUTABLE TO SHAREHOLDERS OF JULIUS BAER GROUP LTD.	Adjusted net profit attributable to shareholders of Julius Baer Group Ltd., divided by the weighted average number of shares outstanding for diluted earnings per share.
RETURN ON TANGIBLE EQUITY	Adjusted net profit attributable to shareholders of Julius Baer Group Ltd., divided by (half-yearly) average of shareholders' equity less goodwill and other intangible assets. ¹
RETURN ON COMMON EQUITY TIER 1 (RoCET1)	Adjusted net profit attributable to shareholders of Julius Baer Group Ltd., divided by the (half-yearly) average CET1 capital. ¹
NET NEW MONEY GROWTH RATE	Net new money as a percentage of assets under management at the end of the previous period. ¹
LOAN-TO-DEPOSIT RATIO	The balance sheet loans position divided by the balance sheet due to customers position.
DIVIDEND PAY-OUT RATIO	Total dividend distribution amount divided by adjusted net profit attributable to shareholders of Julius Baer Group Ltd.
TOTAL SHAREHOLDER RETURN	The change in a company's share price over a period plus any dividends paid by the company in this period, divided by the company's share price at the start of the period.

¹ If the reported period is not a full year (e.g. a half year), the result will be made comparable to a full-year equivalent.
